

# Silvertac

CELCO® PROFIL  
EVERYWHERE CONNECTIONS

Capsule rotating slip ring useful in every application where it's not allowed the use of mercury. Its small dimensions makes it suitable where small dimensions, and FASTON connection are required.

## Technical specifications:

- Insulation resistance >1000m $\Omega$  / 800VDC
- Dielectric strength >1000VAC at 50Hz,60s
- Dynamic resistance <20m $\Omega$
- Pairing material: silver alloy
- Casing material: aluminum alloy
- Standard degree of protection: IP65

## Applications:

- Machines with temperature reading
- Packaging and flow-pack
- In-line welding
- Hot cutting machines
- Plastic printing machinery

Model	Ways N°	Signal ways	Power ways	RPM Max	Volt
ST-220305	5	3 x 5 Amp	2 x 20 Amp	400	240 VAC
