

The GI-IH Series is used in a variety of fields such as control of a rotating pneumatic or hydraulic cylinder, for multistation tables or for use in a rotating cooling cylinder. The number of directions is based on customer needs as well as the attachment (threading and dimension of flange). Ball bearings guarantee the alignment.

### Technical specifications:

MAX PRESS Water, Hydr Oil, Air:  
350 bars  
MAX TEMPERATURE Water, Hydr Oil, Air:  
120°

### Main features:

- Self supporting by two bearings
- Vent hole
- From 2 to 9 Ways
- Size from da 1/8" a 3" gas
- Alluminium housing
